

# Residential

With their full-surface, high-quality light and their thin and barely noticeable heat, OLEDs inspire creativity in future lighting solutions. As the most modern light source in the world, OLEDs are ideal for integrating light in the home. The beauty of OLED light creates a welcoming atmosphere to incorporate in all aspects of a home such as: sitting down to an enjoyable evening with friends or feeling energized in your home office. OLED's high CRI will help home-owners pick just the right outfit!

Lumiblade Brite FL300 panels are available in two shapes, square and rectangle. We offer Brite 1 in mirror or opaque surfaces – the mirror offering a fun, interactive effect. The latest generation, our higher performing Brite 2, is available in two color temperatures (3000K and 4000K) and in two finishing levels.
