

As a global market leader, **OLEDWorks** is a pioneer in the development and production of innovative lighting solutions based on organic light-emitting diodes (OLEDs).

OLEDWorks' **mission** is to enable our customers to create exceptional products using the world's most advanced, powerful and high-quality multi-stack OLED technology.

OLEDWorks' **vision** is to bring the unique beauty, unsurpassed performance and environmentally responsible advantages of OLED technology into everyday applications and safety-critical sectors including automotive, specialty lighting and micro display.

Headquartered in Rochester, NY, OLEDWorks has manufacturing facilities in Aachen, Germany. For more information, please visit our website at [www.OLEDWorks.com](http://www.OLEDWorks.com).

## POSITION OVERVIEW

---

We are currently seeking:

### **Working Student (f/m/d)**

Technical Editor

### **Key Responsibilities**

*(Tasks in agreement with our Team in Rochester, NY to support our international team with the creation and refinement of technical written content.)*

This role offers a unique opportunity to apply and expand your technical communication skills in a real-world, high-tech environment—working with cutting-edge OLED lighting technology and collaborating closely with our experts in the U.S. and Germany.

### **Technical Content Development**

- Create, refine, and structure technical content related to OLED lighting technology
- Translate complex technical information into clear, accessible messaging for diverse audiences
- Support the development of technical white papers, product documentation, and application notes

### **Marketing & Go-to-Market Support**

- Contribute to Go-to-Market strategies for new products and technologies
- Support the marketing team in strengthening technical messaging
- Help enhance customer experience through high quality, accurate communication

### **Analysis & Research**

- Collect and analyze market and customer feedback
- Monitor message performance and traffic across communication channels
- Identify opportunities to include and perform industry related research, improve clarity, consistency, and impact of technical messaging

## **Qualification:**

- Officially enrolled Student the field of study “Technische Redaktion/Kommunikation“
- Good to excellent English skills (spoken and written) are required, with strong attention to detail and clarity
- Proficiency in MS Office (Word, PowerPoint, Excel)
- Strong communication abilities, teamwork orientation, and interest in high-tech topics
- Curiosity and motivation to learn about OLED lighting technology and its real-world applications

Our German entity is conveniently located in the tri-border region of Germany, Belgium, and the Netherlands, in the TRIWO Park in Aachen-Rothe-Erde. In a sophisticated, high-tech production facility, we develop and manufacture the latest OLED lighting technologies. Currently, we are a team of over 200 people with flat hierarchies, and together we aim to grow.

## **We offer:**

- Flexible working location and hours
- An open, team-oriented and informal company culture
- Training
- Free parking / good bus connections
